Fabric Details

The ultimate comfort throughout the day

Designed for motion, the stretch lining and bi-stretch construction in the warp and the weft of the fabric uses an ultra technical stretch Poly/Visc/ Lycra that moves in all directions for maximum comfort at work.

The fabric has been carefully considered to create a formal smart appearance that wards off stains and wrinkles as your team go about their working day.

The collection allows your team to choose a style that works for them. Delivering a cohesive staff look that works from the boardroom to front desk. Available in slim and tailored fits with a variety of styles for your team.

Navy Dot and Black Composition
62% Polyester / 34% Viscose / 4% Lycra

How we tested the fabric

The Envee Collection: Where Artistry Meets Movement

To celebrate the launch of the Envee Collection, we collaborated with two contemporary dancers to put our garments to the ultimate test. Designed to embody grace, fluidity, and freedom, these pieces needed to move as effortlessly as the body itself. The dancers pushed the collection to its limits, testing stretch, durability, and flow through the language of movement.

The result? Garments that performed so beautifully, we were inspired to name each piece after legendary composers. Just as composers weave melodies into timeless works of art, we've crafted garments that blend functionality with elegance.

Developed to meet domestic wash performance standards

We are deeply experienced and passionate, continually testing and refining to ensure your tailored garments last longer. Each piece is carefully developed to meet domestic wash performance standards, from fabric blending to precise engineering.

Clubclass *Options*

Clubclass Options allows you to take one of our stock supported garments and personalise it by adding different trim and buttons.

Starting with a proven base design, you can personalise key details to reflect your individual style, selecting alternative trims and buttons to elevate and refine the overall look.

This approach allows you to create a piece that feels exclusive without compromising on fit, structure, or availability.

All bespoke adjustments are completed in house by our experienced Yorkshire team, lead times are not adversely impacted. You benefit from personalised design without extended waiting periods, allowing you to enjoy a tailored aesthetic within a reliable timeframe.

No MOQs order as many or a little as you need.

UK alterations team that works to your time logistics and delivery deadlines.

Quick, easy and cost effective way to add brand personality to your tailoring.

Garments can be packaged and delivered directly to your customer with your requested requirements

Behind the seams

All garments are a combination of technical excellence and fine craftsmanship expertise that sets them apart from high street suits

The Collar

If you open up the collar you will notice an extra tape that is used to help stiffen the collar.

The Buttons

Dyed through buttons that look good for years without fade.

The Lapel

The lapels are carefully crafted and rolled to give shape and depth for a clean crisp sharp suit.

The Canvas

The canvas creates a structured look but it is also durable and flexible allowing the jacket to naturally conform to your body shape.

The Pockets

The pockets are precision made to look good and stay in shape for the life of the garment.

French Bearer

Gives a "clean" look when fastened and stays in shape through long wear.

Easy Waistband

We have trousers available with a discreet elastic insert to give waist ease while retaining a formal appearance.

Branded Zips

Branded zips are used for industry leading reliability.

Adding Tax Tabs to your Garment

Our tax tab service provides a simple yet effective way to add your customer's branding to tailored garments. These small, high-quality woven labels can be customised and sewn into various discreet locations, such as:

- The side seam, cuff, or pocket of a shirt
- The waistband of trousers or skirts
- The pocket flap of a jacket.

With a range of placement options available, we can help you create a polished and professional look that aligns with your customer's preferences. Simply let us know where they'd like the tax tab placed, and we'll take care of the rest.

People & Planet

We don't just claim sustainability, we certify it. We proudly partner with Carbon Neutral Britain, Wrap, Sedex and Oeko Step to ensure our products, and our processes, support both people and planet.

As we work to drive emissions to zero, we believe that we should be held accountable for our environmental impact. So until we reach our goal of zero, we're taxing ourselves for the carbon we do emit, and investing in carbon offsets to fund projects that neutralize our footprint.

This goes towards funding projects not just on emissions, but also their wider impact – providing secondary benefits such as education, employment, clean water, and a positive impact on the local wildlife and ecology.

Turning recycled plastic into tailoring

The Recycled Polyester fibre is made from 100% PET Plastic Bottles and is Certified by the Global Recycled Standard and is produced in a Green Mill powered by Bio Fuel.

The bottles are sourced using various socially compliant sources such as Identified Collection Agencies, Reverse Vending Machines and collection drives at events. The bottles are cleaned, washed and crushed to create plastic flakes. The flakes are melted down and extruded to make fibre.

We don't use agencies to manufacture our tailoring. We don't use factories that we haven't meticulously checked. We know who makes our clothing and we also expect the same from the partners we work with from the fabric mills to the button suppliers. Our supply chain is industry leading in terms of compliance, sustainability and welfare so you can feel assured that we only work to the highest practices.
