SUNWILL BUSINESS INTRODUCTION

SUNWILL Business is one of the leading providers of corporate wear. With Danish roots and a design heritage which shapes our collection, we have knowledge and expertise producing comfortable, elegant and functional business wear, with the perfect fit.

We provide a range of uniforms and tailor-made business wear solutions to suit specific wearing purposes. With a wealth of experience servicing different industries – being a trusted partner to companies within hospitality, administration and transport – we deliver the most comfortable business wear with the right fit, the right fabric, the right details and the right style, to suit your requirements. We take pride in meeting your demands and we understand the importance of an efficient delivery performance.

That is why we produce most of our collection in our factories in Europe, ensuring a seamless and timely process from initial order placement, to receiving the ready-to-wear uniforms. Moreover, we can deliver optimal turnaround times for any additional orders, to cater for your growing business needs.

It would be our pleasure to do business with you.

**WE MAKE YOU LOOK
PROFESSIONAL**

In any sales situation, presenting your company and employees professionally is key. SUNWILL has a proud tradition of crafting business wear tailored for diverse industries.

Our stretch fabrics ensure all-day comfort and a wrinkle-free look, keeping you sharp from morning to evening.

SUNWILL Business - The Right Fit for Business

MEMBER OF BETTER COTTON

We are proud members of Better Cotton.

RE:TURN

SUNWILL offers a takeback solution called RE:TURN. With RE:TURN, your company can hand in used clothing and give new life to the valuable raw materials that the clothes are made of.

OEKO-TEX STANDARD 100

Oeko-Tex is the world's leading health certification for textiles. In short, Oeko-tex certification guarantees that the fabric/product is not harmful to the wearer's health. The 'Confidence in Textiles' logo is familiar to most people. Oeko-Tex 100 is a human-ecological product standard. The textiles are tested for harmful chemicals and dyestuffs.

RESPONSIBILITY

PHILOSOPHY

AND INITIATIVES

From the very beginning, SUNWILL has been about making high quality clothing for the well-dressed man. We believe that the road to a long lasting wardrobe starts with good, timeless design in a quality that lasts season after season.

At SUNWILL, fit and functionality is of high priority, and we take pride in designing clothes that can be used for multiple occasions simply by changing accessories and shirts. With durable quality and good design, you do not have to fill the wardrobe with clothes that you do not really need. A pair of jeans, a pair of trousers or a blazer that fits well and is made from durable materials is far more powerful.

By adding smart, yet elegant details, we strive to ensure that the majority of SUNWILL's products last longer by choosing high quality materials.

LIFETIME GARMENT

Before we send our clothes to production, we subject them to various tests to ensure that we produce clothing with a high quality, so the clothing will have a longer lifetime.

AUTOMATED WAREHOUSE

Our robotic warehouse improves the workplace efficiency of any working day, requiring less running and lifting. Extremely energy efficient, it can run 24 hours a day without the need for light or heat.

LOGISTICS/TRANSPORTATION

To ensure that we work on lowering our environmental impact we monitor our logistics data to ensure we optimize our shipments, receive CO₂ data and avoid airfreight as much as possible.

By using ocean freight, having our own production facility in Europe and working with our logistics suppliers on our third-party suppliers, we have a very low CO₂ emission on transportation.

DURABLE UNIFORMS THAT FIT WELL

No matter if your aviation company needs pilot clothing or clothing for the cabin or ground crew, SUNWILL can deliver the attire you need. Aviation attire from SUNWILL is made from durable materials, which makes it perfect for aviation employees to use no matter if the employees work as pilots, stewardesses or luggage workers.

WRINKLE FREE UNIFORMS FOR WORKERS IN THE AVIATION INDUSTRY

SUNWILL attire for aviation industry workers is made from fabrics that does not wrinkle so the staff, no matter what they do in the company, present the company in the most professional way.

THE PERFECT HOSPITALITY UNIFORMS

Hospitality uniforms from SUNWILL are made for you to look sharp and professional all day without making any compromises when it comes to comfort and freedom of movement. No matter what your job functions are within the field of hospitality, we have the exact business wear you need for yourself and your employees.

PERSONALISED STYLISH DESIGNS

Our blazers, vests, trousers, dresses and skirts ensure staff members maintain a smart and professional aesthetic in front of customers and clientele. When it comes to finding smart, stylish and practical hospitality uniforms for all roles within the sector, we have you covered here at SUNWILL.

PROFESSIONAL UNIFORMS TO LOOK SHARP ALL DAY

At SUNWILL, we create professional uniforms designed to keep you looking sharp and feeling comfortable throughout the day. Our uniforms are made from high-quality, wrinkle-resistant fabrics that maintain a polished appearance, even after hours of wear.

COMFORTABLE UNIFORMS FOR EVERYDAY PERFORMANCE

Many of our professional uniforms incorporate stretch fabrics, offering maximum comfort and flexibility. Designed to move with you, these uniforms ensure you stay comfortable and maintain a crisp, fresh look, no matter how long your day is.

HIGH-QUALITY FABRIC

NOS - NEVER OUT OF STOCK

COMFORTABLE AND VERSATILE

CREASE-FREE

TRAVELLER

ALWAYS FRESHLY IRONED

By using a special fabric, these clothes are less likely to crease, even after sitting for many hours. The fabric corrects itself and looks almost freshly ironed.

Traveller is most suitable for frequent travellers – or those who need to be presentable and crease-free all day long. The Traveller range consists of many pieces and styles, and contains business attire for both men and women.

COLOUR SAFE / WATER AND DIRT REPELLENT FOR EXTRA DURABILITY

Business wear needs to be more than just comfortable and presentable, it also needs to be durable and tolerate extra wear. The colour safe technology is a special colour method that makes colours more durable. The fabric is prepared and treated before it is coloured, which binds the colours to the material. This method results in extremely durable colours, which don't fade or turn grey – even after multiple washes.

To avoid stains forming on the clothes, we add a special water and dirt repellent finish on selected pieces. This finish acts as a special layer that prevents liquid from penetrating the fibres. Any spillages on the clothes will just glide off without leaving any visible marks.

SUPER STRETCH JEANS FOR BETTER COMFORT

A nice pair of jeans is the perfect attire for a more casual look. However, the problem with many jeans is that the fabric can seem stiff and inflexible, which is hardly optimal if your job requires you to sit for long periods of time.

The Super Stretch fabric contains larger quantities of elastic fibres than other stretchy fabric. The elastic fibres woven into the fabric make it extra flexible, so that it follows the body's movements. As well as providing supreme comfort, super stretch clothing stands out by its ability to return to its original shape, and thus keeping its shape for longer.

FUNCTION WOOL FOR BETTER COMFORT

Experience comfort with our polo shirt. The polo is developed with the Function Wool feature with wool on the inside, which makes the polo temperature-regulating, so you can both keep warm and release heat. The polo is soft, comfortable and stretchy, and it doesn't scratch. It doesn't wrinkle and keeps its colour even after washing, so durability is top-notch. The perfect polo for those who want comfort and mobility.

STRETCH TYPES

Enjoy ultimate freedom of movement with our four stretch types. Designed for comfort and flexibility, they ensure a perfect fit for any activity. Experience fabrics that move with you effortlessly.

WEFT STRETCH

The stretch comes from the weave method used, or from elastic fibres woven into the fabric - or a combination of both. Knitted fabrics tend to be more elastic than woven fabrics. By using the right elastic fibres, you ensure that the fabric contracts back to its point of origin after each stretch, which helps ensure that the clothing retains its shape.

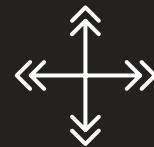

SUPER STRETCH

In our Super stretch fabrics, the quantity of elastic fibres is increased, making the fabric significantly more stretchy. It is still important that the fabric contracts back to its point of origin. Super stretch is typically used in our chinos and jeans.

BISTRETCH

Stretchable in both directions for maximum flexibility and comfort.

EXTREME FLEXIBILITY

Extreme Flexibility is even more stretchy than Super Stretch. This tends to be used in knitted products, which also contain elastic fibres or woven fabrics, and which have been made extremely stretchy either through the weave method or by using an even greater proportion of elastic.

FEATURES

Explore innovative features like lightweight fabrics, wrinkle-free technology, recycled materials, and colour-safe finishes—designed to enhance comfort, style, and durability in every garment.

LIGHT FABRIC

Lightweight materials, ideal for indoor work, warmer climates, or summer wear.

RECYCLED POLYESTER

Indicates the use of recycled polyester in the fabric. Each item specifies the exact percentage of recycled polyester used.

WRINKLE FREE

It's not always that easy to get to a meeting with the just-ironed look intact, when you must first negotiate the early morning rush hour by taxi or train. Which is why we have developed an exclusive mix, which retains the smooth and freshly pressed look, regardless of whether you have just travelled 10 or 10,000 miles.

COTTON

Using fabric that contains cotton means you can obtain a more relaxed look than that associated with woollen trousers. Cotton is a very pleasant-feeling, natural material that feels nice on the skin and offers good comfort.

WATER AND STAIN RESISTANT

In order to make the normal working day easier, some of our fabrics have been treated with a water- and stain-resistant finish. This treatment means that fluids spilled onto the trousers simply bounce off without soaking into the fabric.

COLOUR SAFE

Colour safe technology is a dyeing method that ensures colourfastness. The fabric is processed and treated prior to dyeing, which results in intense, dark colours. The colours do not fade, nor do they go grey - even after multiple washes.

A FIT FOR EVERYONE

SLIM FIT

This fit is for those who want a sleek and modern look. It's close-fitting and tailored to enhance a sharp, elegant silhouette – perfect for a polished and contemporary wardrobe.

FITTED FIT

Fitted Fit offers a close fit with a bit more room for added comfort and freedom of movement. It's a versatile choice that blends the best of a slim look with a more relaxed feel.

MODERN FIT

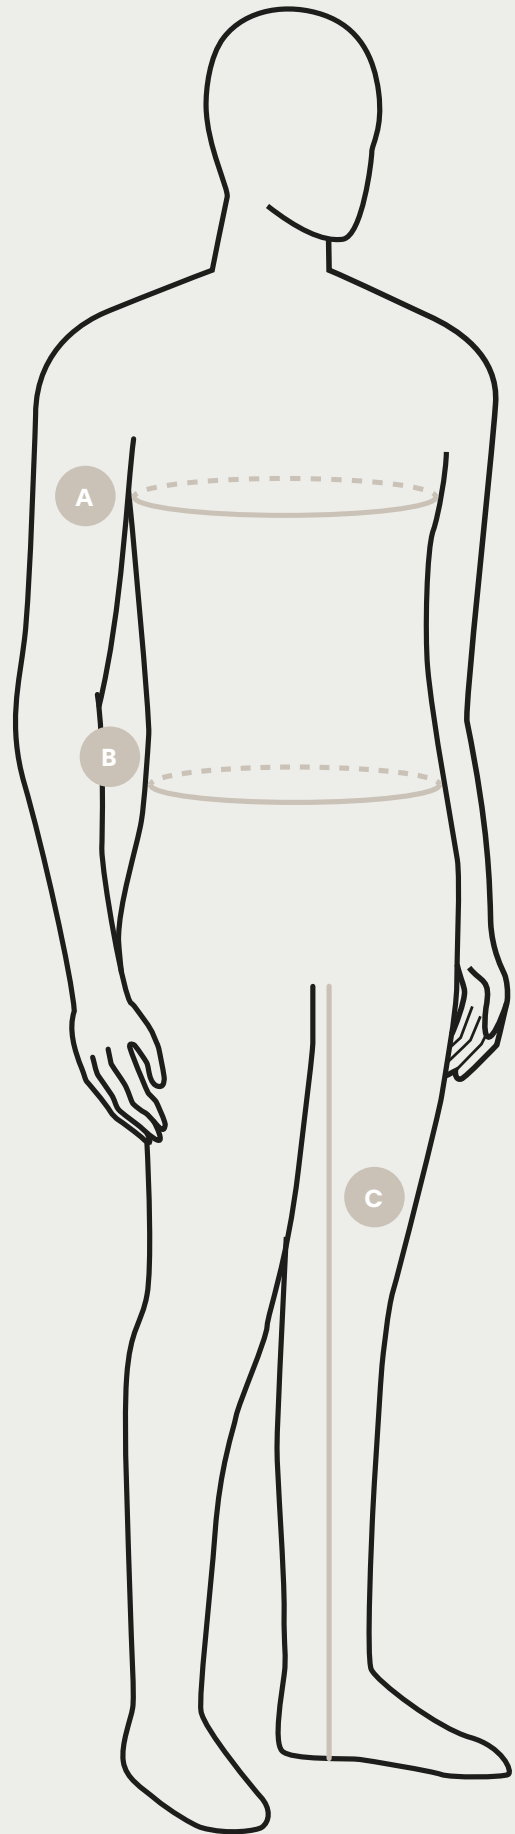

With Modern Fit, you get a slightly looser fit that doesn't compromise on a stylish appearance. It strikes the perfect balance between contemporary style and comfortable wear.

REGULAR FIT

Regular Fit is the most spacious option, offering a looser and more relaxed feel. Designed for those who prioritize maximum comfort and freedom of movement while maintaining a classic look.

MEN'S SIZE GUIDE

- A** Measure around the chest with arms flat along side of body
- B** Measure your waist right above your hip bone.
- C** Measure from crotch to floor inside at leg (without shoes)
